

PROJECT SHEET

Restoration of Masseria Palombara

ORIA, BRINDISI, ITALY

THE PROJECT

Transformation of a building abandoned for fifty years into a modern luxury tourist center, including guest rooms and a spa, while preserving the original style and materials. Floors, showers, bathtubs, and all walls were restored using Prompt Natural Cement.

Owner _____

Masseria Palombara

Architect & Project Management _____

Design e direzione dei lavori & Angelo Lippolis

Contractor _____

Angelo Lippolis

Duration _____

6 months

Delivery date _____

july 2021

TECHNICAL APPROACH

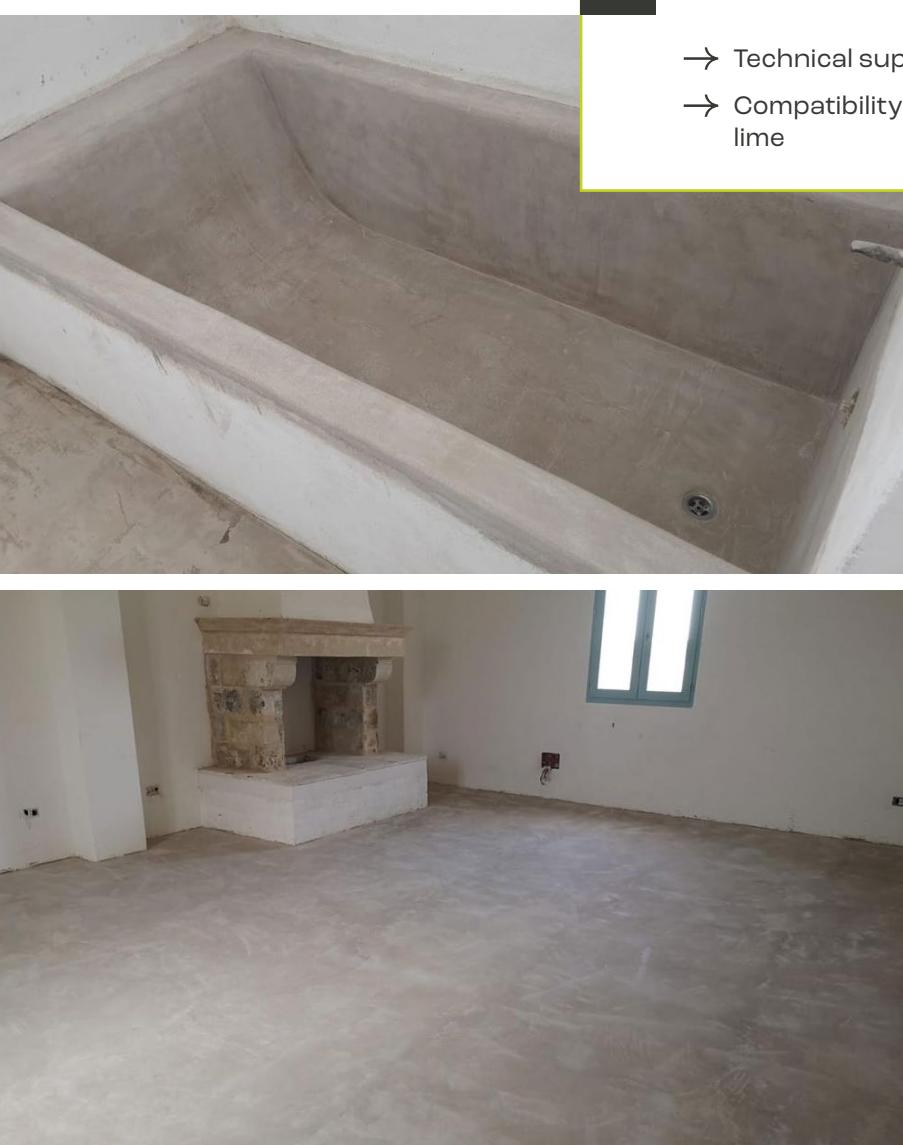

Prompt Natural Cement was used for waterproofing mortars on floors and walls, as well as for repairing pools and making fast-setting

grouts. For water- and oil-repellent treatments, a product based on soap and natural wax was applied.

+

VICAT ADVANTAGES

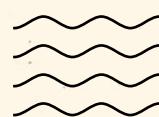

- Technical support
- Compatibility of PROMPT natural cement with hydraulic lime

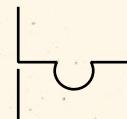

PERFORMANCE REQUIREMENTS

Aesthetic finish

Resistance in humid and wet environments

Compatibility with existing substrates
